PROFESSIONAL SUMMARY

Junior Full-Stack Developer with 6 months of hands-on experience at Wynd Technology Pvt. Ltd., specializing in Angular, Node.js, PostgreSQL, and Sequelize. Experienced in developing responsive web applications, building RESTful APIs, and managing database-driven functionalities. Skilled in frontend development using Angular, TypeScript, HTML5, and CSS3, with backend experience in Node.js and PostgreSQL. Familiar with Git, GitHub, GitHub Desktop, and Postman for collaborative development and API testing. Strong problem-solving ability, adaptability, and a continuous learning mindset with a focus on building scalable and user-friendly web applications.

EDUCATION

APJ Abdul Kalam Technological University (KTU) Bachelor of Technology in Computer Science	Wayanad, Kerala Oct 2022 - May 2025
State Board of Technical Education Kerala Computer Engineering	Trikkaripur, Kerala June 2019 -July 2022

WORK EXPERIENCE

Wynd Technology Pvt. Ltd., Calicut — Junior Software Developer Sep 2025 – Present
Tech Stack: Angular, Node.js, PostgreSQL

- Developed and maintained responsive web application features using Angular, TypeScript, HTML5, and CSS3, improving UI consistency across multiple modules.
- Designed and integrated RESTful APIs using Node.js and Express.js, enabling seamless frontend-backend data flow across key application features.
- Working with PostgreSQL and Sequelize for database operations and query optimization.
- Collaborated using Git and GitHub in a team environment, managing feature branches, code reviews, and pull requests across active sprints.
- Tested and validated 20+ API endpoints using Postman, ensuring correctness of request/response cycles before deployment.

PROJECTS

F4Fish Admin Panel Angular, TypeScript, Node.js, PostgreSQL, Sequelize	Active Development
• Developed and maintained responsive admin panel features using Angular, TypeScript, HTML5, and CSS3. • Implemented functionalities for managing fish products, stock updates, inventory tracking, and order-related operations. • Developed 15+ backend API endpoints using Node.js and Express.js for product, inventory, and order management modules. • Worked with PostgreSQL and Sequelize for database operations and query optimization. • Followed Git-based collaboration workflows, contributing to regular commits, branch management, and code reviews.	
Eat Easy Restaurant Application Angular, TypeScript, HTML5, CSS3	In Progress
• Contributed to the frontend development of a food ordering web app using Angular, building reusable components for restaurant browsing, menu display, and order placement. • Implemented Angular routing, reactive forms, and HTTP service integration for a smooth end-to-end user ordering experience. • Applied responsive design using HTML5 and CSS3 to ensure consistent cross-device compatibility across mobile and desktop screens.	

- Built a full-stack gym management system using Angular and Node.js, handling member registration, payment tracking, and workout scheduling.
- Designed a PostgreSQL database schema to efficiently store and retrieve member profiles, payment records, and time/rep-based workout plans.
- Implemented both time-based and repetition-based workout tracking modules, giving gym staff flexible tools to manage member progress..

CERTIFICATIONS & TRAINING

Next Gen Employability Program – Full Stack Web Development with MERN

Edunet Foundation, EY Global Delivery Services (EY GDS), Kerala Academy for Skills Excellence (KASE)

- Completed **150 hours** of instructor-led training in Full Stack Development

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript, HTML5, CSS3

Backend: Node.js, Express.js

Database: PostgreSQL, MySQL, MongoDB

ORM & API Tools: Sequelize, REST APIs, Postman

Version Control & Tools: Git, GitHub, GitHub Desktop, VS Code

SOFT SKILLS

Communication Skills, Problem Solving, Team Collaboration, Adaptability, Active Listening
